Hello! This is Feven.

A curious learner constantly exploring new tech to improve the world through software.

Enjoy my selected track as you navigate through my portfolio.

About Me

Hello! I'm Feven Issayas, an aspiring software engineer with a deep curiosity for technology and software development. I thrive on problem-solving, and find immense joy in working collaboratively with others.

I am currently focusing on web development, with a passion for building innovative solutions to real-world problems.

I'm always eager to learn and grow, constantly challenging myself to stay ahead of the curve in the fast-paced tech industry. I aim to create impactful software that makes a difference in people's lives and helps solve complex challenges.

Educational Background and Skills

I began my academic journey at a reputable Catholic high school, where I cultivated a deep sense of discipline and a passion for learning. These foundational values have significantly shaped my approach to education and personal growth. Currently, I am pursuing a degree in Software Engineering at Addis Ababa University, AAiT.

Outside of classes, I've been working on improving myself by taking extra courses and working on projects that challenge me to think and grow.

EVANGADI

EvangadiTech

- Comprehensive training in full-stack web development.
- Hands-on experience in building and deploying dynamic web applications.
- Collaborative teamwork on both mini and large-scale projects.

DEMERA

- In-depth learning of Microsoft Azure and cloud architecture.
- Certified in Microsoft Azure Fundamentals through Skillsoft programs.
- Practical knowledge in deploying cloud-based solutions.

CISCO

Cisco

- Linux Essentials - foundational knowledge of Linux operating systems.
- Python Essentials 1 - introductory programming concepts.
- Python Essentials 2 - advanced Python programming skills.

Technical Skills

Java
Data Structures and Algorithms
SRS Documentation
Python
Object-Oriented Programming (OOP)
MySQL Database Management
JavaScript
Problem Solving
Team Collaboration
